

Submitter: Adam Abell

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

As a safety conscious motorcyclist of 30+ years, I wholeheartedly support SB422. Allowing lane filtering reduces traffic congestion, provides additional legal escape routes for a vulnerable vehicle, and allows riders exposed to increasingly extreme weather conditions to find relief in a timely fashion. Having frequently found myself effectively stranded in stalled traffic, wearing multiple layers of protective gear in the height of summer, or the sudden inclement weather that the PNW is known for, having the ability to legally find shelter is invaluable.
