

Submitter: Lee Marple

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am in favor of this bill passing. I've lived in California where this has been legal for years and if done correctly, has been proven safe. I can't tell you how many times distracted drivers have almost rear-ended me on Hwy 205 and I5. If used at slow speeds it definitely helps move traffic faster, which we need more and more in this State.
