

Submitter: Justin Burger
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

Lane filtering can reduce traffic congestion, decrease travel time, and improve safety for motorcyclists. When motorcyclists are allowed to filter through traffic, they can reduce their exposure to the risk of rear-end collisions, which are a common type of motorcycle accident. Additionally, because motorcycles are smaller and more maneuverable than cars, they can more easily navigate through traffic.
