

Submitter: Norman Canfield
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

As a responsible motorcyclist, I am in support of this bill. This bill will allow motorcyclists to protect themselves from being rear-ended, saving lives and injury. In discussing this with others, it appears there is a misconception of what lane filtering is. This is not the aggressive and reckless lane splitting you see in California. Lane filtering allows motorcyclist to filter in slow and unmoving traffic. This not only protects the motorcyclist, but it also addresses car congestion in heavily trafficked areas. I was happy to see a bipartisan bill that did good for the communities of Oregon, it was unfortunate the previous Governor vetoed the previous attempt at a sane adjustment.
