

Submitter: CJ W

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

I wish to state my STRONG disapproval of this proposed bill. My objections are: 1. The taxpayers cannot afford to hand out more money. 2. Handouts and entitlements do nothing to help a person take responsibility for their own life and dire circumstances. 3. The taxpayers cannot afford to hand out more money. 4. There are organizations too numerous to list that give food, overnight shelter, clothing, etc. etc. etc. to those who are down on their luck (whether by circumstance or by choice). 5. The taxpayers cannot afford to hand out more money. 6. In truth, this is a socialist tactic. It makes people more dependent on the government and less dependent on their own capabilities to run their life. It steals personal incentive to "do better". It steals self-esteem and the ability to be proud of accomplishments. 7. The taxpayers do not want a system of governance that is based in communism/socialism.

Please allow this bill to die in committee.

Thank you for your time.
