This has saved my life more than once. My air cooled motorcycle started to over heat while sitting in traffic in portland on a hot summer day. I took it upon myself to split lane at a safe speed. While doing it I passed a cop. The cop pulled me over. Just to talk to me about it. When I explained that if bike over heats and stalls out traffic would be worse let alone that I'd probably pass out due to the heat coming off the asphalt and bike He agreed that that was safest thing to do. And I carried on.
