

Submitter: Jennifer Childress

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB795

We are writing to oppose SB795. As residents of Nehalem and neighbors to the Coal Creek Forest, we are grateful for the Oregon Department of Forestry's Conservation Plan and the work that went into creating it. The State is trying to balance the needs of all Oregonians and it is clear that the majority of us want forests to be managed to enhance clean water, support habitat for fish and wildlife, and maintain opportunities for recreation. These objectives reflect the "greatest permanent value" and we are glad that ODF is working towards these goals.

Thank you,

Jennifer and Watt Childress, Nehalem
