Getting tired of the systemic racism ideology! I am a black woman who is insulted by this. Also, if your agenda is to minimize white children, you're still continuing the race card. White children need care also. By the way, did you know that Black panther leader, Angela Davis, found out that one of her Ancestors arrived on the Mayflower, had slaves and was white. She had a diificult time wrapping her head around the truth. But Truth it is. Also, because of the agenda going on in Portland Schools, try just teaching the children actual reading, writing and arithmetic, vs systemic "nonsense". They are children, not pawns for your agenda.
