Measure: SB776

Hello Senate Committee.

1st in Reading testimony on this bill and others.... (I click on them and they are blank).

My guess is all people have slavery in their backgrounds... this reparations is flawed. more discrimination of all but the "privileged" is to ignore so many wrongs. If we are to even consider reparations, should it not be for those who were falsely accused and spent years in Jail for crimes they did not commit, (I think so).
