

Submitter: Alisa Emwalu

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB610

My family has been out in the states for while. Living each day just trying to get by, being able to put food on the table and a roof over our heads. As the government changes, increasing of foods and everything nowadays, things have been very challenging. Alot of families have been impacted and are just trying to make a good life for their children. I believe foodstamp (SNAP) should be allowed for every family who are struggling, poor or low income families. It should be fairly and equally given to wide variety of individuals. Even having a job but after paying all the bills your left with not enough to afford food. We struggle and make it last till the next payday. This benefit will help a lot to families. Help us feed our children of our future.
