

Submitter: Lindsay Soto

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB491

I strongly support SB 491 and urge you to support this important piece of family building legislation.

I myself am 38 years old and currently struggling to complete my family. I have secondary infertility and NO coverage. I have delayed treatment due to the enormous expense of consultation, diagnostics, medications and treatment whether that's with IUI or IVF. I work in healthcare as a registered nurse and cannot access this healthcare myself without putting a huge financial burden on my family.

PLEASE make this change, it will help so many people in all different situations of infertility.
