Measure: SB491

I strongly support SB491. As a single parent by design this is the type of family support that I really needed when building my family. The cost of fertility treatments was a huge hit on my finances, something I worked three jobs to be able to afford. Without this bill, fertility treatment is largely inaccessible for so many families, especially LGBTQIA+, single parents, and those who need fertility preservation. I hope you'll support this much needed pro-family bill.
