

Submitter: Carla Pletka

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

I am opposed to much of this legislation. It is inherently racist and divisive. Any legislation for an underserved people should be addressed to ALL underserved people.

The rainy day fund should not be used for anything other than absolute emergencies.

Land-use changes should be decided by the affected local communities not the Governor via executive orders.

Focus on partnerships with current semi-conductor factories for education, apprenticeships, etc.

Raise educational standards for all Oregon students to help address the shortage of an educated workforce for semi-conductor factories in Oregon.
