

Submitter: Sascha Siekmann
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

I support SB 422 for the following reasons.

1. It's actually safer for motorcycles to filter through lanes in traffic jams. Being at the end of stopped traffic make them more vulnerable to rear-ending.

2. From personal experience these few last hot summers, having to stay behind cars in traffic jams is dangerous to riders as they cannot cool down by staying in motion. The engine produces heat additionally and there is now other method to cool down other than staying in motion.

Please vote yes on SB 422.

Kind regards,

Sascha Siekmann
