

Submitter: Gregory Welch

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am a motorcyclist with 9 years of safe riding experience. Please support SB422. Lane sharing will benefit all road users and help alleviate rush hour congestion as well as reduce emissions. This is also proven to be safer as it allows motorcyclists to make the best lane positioning decision available to them. Riders that aren't comfortable lane sharing do not have to exercise this option.
