As for me & my family, we are 100 percent support this bill. Food is not that cheap and it's the most important need in our daily life. I think establishing food stamp for us would help carry the burdens on us financially. Paying rent, utilities, car insurances & other bills is way above and beyond our limits. On the other hand healthy foods, fruits, and vegetables are needed for my parents & the kids as well. I guarantee that if this bill would be pass, our lives would be so much easier. Lastly, as I'm planning on continuing classes at EOU, this would really help me focus more on school and not stressing out about anything rather than just studies.
