

Submitter: Rowland Creighton II  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

Hello. My name is Rowland, friends know me as Logan. I am 53 years old, a year round motorcycle rider of 20+ years, Harley-Davidson employee and a strong advocate of lane filtering. Lane filter is more than just a method for motorcycles to move between cars to the front at red lights during heavy traffic and congestion.

This method has been proven to reduce congestion, reduce rider injuries/fatalities from rear end events. I often hear the term "share the road", mostly referring to bicyclists (I'm one of those too), all in the name of "safety", yet the same considerations are not given to motorcyclist. Let's make that happen people. Let's give us motorcyclist the legal right to position ourselves safely among stopped traffic...I really don't want to sit in the "kill box", surround by cars, wondering if I'm going to crashed to death anymore. I can be reached at 503.539.4836 if anybody wants to chat about it.

Thank you for your time, do the right thing on my behalf please. Pass this.
