

Submitter: Charles George

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I have been riding motorcycles with a motorcycle license since 1987, served in the military and have lived in many states that have laws aligning with SB422. It enhances safety, reduces traffic congestion, and encourages riding economy vehicles like motorcycles that typically get higher fuel economy than cars. With the right controls in place, SB422 will have many benefits. I fully support SB422 and wish it to move forward. Thank you.
