

Submitter: Scott Mendzer
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

I am a motorcyclist in support of SB422, under certain conditions it is much safer for motorcycles to be able to travel between lanes traffic, it reduces the chance of being rear ended and pinned between vehicles by inattentive or impatient drivers during heavy traffic or when coming to a stop at an intersection, as well as aiding in reducing congestion by moving people more efficiently and in a timely manner to their destination.

Please support SB 422.
Thank You
