

Submitter: Scott Malbaurn

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

As a new 46 year old motorcycle rider of the past 18 months, I have learned so much from TEAM Oregon, the operating body that teaches riders. I have learned that most motorcycle accidents are riders faults. I have learned control and have grown immensely in these past months. I have rode into California and witnessed how lane splitting works to keep traffic moving and supports more commuters into becoming riders, lowering emissions and traffic jams. This bill will help and support our commuters and the future of lowered emissions, especially with the newest technologies of electric motorcycles.
