

Submitter: Suzanne Pflaum

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB551

As a mother to a young child, I am strongly in favor of this simple and effective public safety measure. Schools are places not just for learning by the students but also for positively impacting and educating entire families and communities. Empowering families with basic information about secure storage of potentially lethal materials - medications and firearms - has the potential to prevent so much tragedy. Knowledge is power! And in this case, it's the power to directly save innocent lives from accidental injury or death. Please move this bill forward expeditiously!
