

Submitter: Michelle Jacobs

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2697

Please support safe staffing. It takes every single frontline staff member caring for patients to provide safe patient care. In 2008 I sat in my nursing school orientation class and was informed there will be a nurse staffing shortage by 2030. It's no longer just a nurse staffing shortage but a frontline healthcare shortage. We need your help. Please support this bill.
