Measure: HB3159

I support bill HB 3159! I am a sixth generation Oregonian, and I want my kids and their kids to have the same kind of Oregon, with the same wildlife that my great great grandfather had. It is slipping away, and we don't even know how fast. Its time to make sure Oregon remailns a beautiful natural habitat for all of the life that it supports, because without that it cant support any of us.
