

I OPPOSE [HB 3227]...WITH EXTREME PREJUDICE!

[HB 3227] removes "examinations" and inserts "assessments" in the hiring process for the Classified Service.

Examinations are an objective and the *only fair method* to judge qualified applicants for the Classified Service.

Assessments are subjective is grossly unfair and opens the door to corruptions in the hiring process.

From my reading of [HB 3227], expediency and convenience is to be substituted for Civil Service Rules and gives rise to injustices in the appointment process.

It also appears to me, the need for Representative Nosse to re-educate herself with the evils of Tammany Hall political appointments.

David S. Wall

Mr. Oregon Concurr and says, "The person with the Highest Score on the Examination gets the job-No political assessments here."
