

Submitter: Mark Wilson
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

Decrease traffic, allow motorcyclists to safely split traffic. Adopt the California legislation, or something similar, that allows motorcyclists to pass between cars that are traveling at 25 mph or less, and require that the passing motorcyclist pass at a speed that does not exceed 10 mph faster than the cars between which it is passing. This allows motorcyclists to pass traffic at a maximum speed of 35 mph. Of course, there will be accidents, but there already are accidents. Motorcyclists that split traffic understand the risks and typically approach it cautiously. Of course, there will always be offenders, and offenders are already offending the law as it stands now in other ways, so this law will not increase any number of offenses. Police it well, please!
