

Submitter: Joe Meyer

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB3

As an employee of a regional bank, I fully support this bill, Oregon Senate Bill 3. Financial literacy has always been important, but it has become an absolute necessity in the past few decades. The world of personal finance has become dauntingly complex and can be rampant with misinformation. We risk leaving behind large swaths of current and future generations to try and fend for themselves, unless we do something to help them navigate it. Please make this piece of legislation a reality for our students!
