Committee: Senate Committee On Education

Measure: SB3

I attended Highschool in the 80's in Washington State. This was a class that we could choose to take. So many kids now a days do not know how to handle their money, let alone plan for the future. I learned how to do my own taxes, balance a checkbook, and how to actually write a check and many other things I needed to know to go out in the world. I am in total support of this Bill.
