

Submitter: John Livingston

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3159

I live in Salem moved from northern California to enjoy the huge outdoor and recreational opportunities that Oregon offers. I do of lot of recreational activities in and along rivers and the ocean. We need to invest more money in efforts to recovery from the destruction we have done over the past 100 years to our natural resources. We need to stop the destruction of salmon habitat and dwindling populations of many creatures, plants and their habitats. Please pass HB 3159 and put the funding to effective use.
