

Submitter: Russell Lum
On Behalf Of: Oregon Nurse
Committee: House Committee On Behavioral Health and Health Care
Measure: HB2697

There are too many stories/instances to tell. I know as a charge nurse, I — every month — fill out the report of our being staffed inadequately to our staffing plan. As a charge nurse, I frequently miss my lunch break due to interruptions, phone calls, and care coordination. These aren't rare occurrences, they are frequent. -RN in acute care hospital in Oregon
