

Submitter: Jordan Ohrt

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

This is a very bad bill. Why don't you lower the income tax, take away the CAT tax which is a sales tax, give us our kicker back and lower our tax burden. You are taking money from people who are trying really hard to make it and giving to others who possibly have untreated mental health or addiction issues. There are other ways to help people who are struggling, this is not it!
