

Submitter: P L

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

Why as Oregonians do we continue to entertain crap like this? Let's take tax dollars from us hardworking contributing citizens and give it to the homeless, down and out, and destitute people which if I understand this bill in reading it they could even be non-citizens. I truly have compassion for those who have found themselves in a position of need but what we need isn't handing my hard earned tax dollars so those who can't get their lives straightened out and have found that the state will aid in the continued downward spiral. This "experiment" is going to only exacerbate an already deteriorating faith that those serving in our capitol lack judgement in leading our state to a state of no return.

Stop trying to save the world by giving up the most precise thing we have. Good honest tax paying Oregonians like me who is watching the state I love whither into what looks like a third world country. Lets focus on solving the problem through getting our drug problem under control. Reverse Measure 114, fund (and more importantly support) our law enforcement agencies. It's ridiculous how out of control this state has become in thinking we need to cure our ailments by supporting irresponsibility and a "what will the state do for me" mentality. Work for what you have, do the right thing and those who cannot or will not contribute to our great state can MOVE ON!

NO ON SB603!
