

Submitter: Angela Haragan

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB603

I am 100% opposed to this \$1,000 monthly payment for the homeless, etc. There are already PLENTY of programs in place for housing, food, & healthcare etc for the homeless. This would be nothing more than a huge payment to the cartel, as a large portion of these funds would end up supporting drug addictions. We have a mental health & drug addiction crisis in this state & this free money will do nothing to help with these problems. Utilize the services we already have in place to help with these issues of drug addiction & mental health, like measure 110 funds, etc. You do not need to make another welfare program that will be used and abused. I can only imagine how many more people will flood our state when they hear they can get monthly \$1,000 payments to do whatever they please with. This will only further hurt our state & we do not need more problems than we already have! Please do not pass this bill!
