

Submitter: Joe Backus

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Human
Services

Measure: HB5026

DSP's are vital to our organization! An increase in the wages for DSP's will not only create a living wage but will increase stability of staffing which in turn increases the quality supports we are able to provide to the people who choose our services.

This funding is a completely different source than the capital campaign but equally as important. Without our DSP's, we aren't able to provide the amazing supports that we do to those with Intellectual/Developmental Disabilities.
