

Submitter: Kevin Ernst

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I am a motorcyclist. Often times I am afraid to sit in traffic, because I'm not sure if the person in the car behind me is on their phone or not paying attention and going to rear-end me. A motorcyclist getting rear-ended will likely sustain serious injuries or die. Please help reduce fatalities and reduce traffic on the road by supporting lane filtering. Please support SB422.
