

Submitter: Mats White

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

Please support SB422. Lane filtering is a safe and effective way to improve traffic congestion and reduce transit time for all vehicles on the road; not just motorcycles. The California Highway Patrol endorses the practice in California where it has been done safely for decades. Lane filtering actually improves motorcycle safety by reducing the chances of a rear end collision, possibly the most dangerous collision for motorcycles.
