

Submitter: Jay Contonio  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

I am a motorcyclist in Oregon and support this bill. Traveling on two wheels is environmentally friendly, helps reduce congestion, and increases parking spaces for cars. Lane filtering will help keep us safe from rear-end collisions, and reduce traffic congestion at stop lights. It's done around the world and it's time for it to happen here.
