

Submitter: Keith Littlefield
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

I've ridden motorcycles for 20 years across different states and countries. Lane filtering is a widely used method to ease congestion and is safer for motorcyclists specifically in stop and go traffic. Further, the carbon benefits of motorcycles versus cars is undeniable. In my riding life, the vast majority of bikes I've owned have gotten above 50 mpg and their manufacturing footprint is way less than cars.
