

Submitter: Heidi Gibson

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB803

I have 2 vehicles that use diesel fuel and work for in transportation. Our trucks only use diesel. I would not be able to drive unless I purchased a new vehicle and my other vehicles would be worth nothing. I would also be out of a job. Diesel is better for the environment then regular/unleaded fuel. I don't get why this is even an issue.
