

Submitter: David Wall

On Behalf Of: Mr Oregon Supports HB 3123

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HB3123

I SUPPORT [HB 3123].

Oregon's deployed water pollution control technologies are one thin hair above unacceptably primitive. Especially, in Yamhill County.

Increasing NPDES discharge limits are going to make many Oregonian jurisdictions squeal like stuck pigs when the EPA folks come to town.

Many Oregonian Jurisdictions are trying to gain access to the Water Pollution Control Plant REVOLVING FUND as seen later in today's show [HB 3195 (2023)]; to fund NON-POINT SOURCE PROGRAMS for starters. This should be expressly forbidden.

Personally, I currently wouldn't use sludge on any farmland-landfill cover maybe, until ZERO WASTE shows up.
