

Submitter: Russell Taylor  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

I am a registered Oregon voter & urge you to support SB 422. I am 65 years old and have been riding and maintaining my air cooled street motorcycles for 45 years. Air cooled motorcycles are subject to overheating very quickly when idling in a traffic jam, resulting in engine damage, subject to possible meltdown and fire, causing an emergency situation and even a longer delay in traffic movement. SB 422 will allow Motorcyclists to safely pass through a traffic jam, air movement keeping the engine cool, allowing them exit the jam to safety. A yes vote for the well written SB 422 is clearly a good choice to safe public commuting for Oregon.

Thank you  
Russell Taylor
