

Submitter: Myra Anderson

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I learned to ride motorcycles in Los Angeles while living there for 14 years. Being back in the northwest, I understand the safety associated with being able to lane split. Not only is it better for my bike when I'm stop and go traffic, it is a huge safety precaution too. Being able to ride between cars, puts me in a safer position to not be rear ended when people are not paying attention. It also puts me at an advantage of seeing around me better, giving me a better chance to avoid an accident. As a motorcyclist, I urge you to support this bill to help myself and all other Oregon riders stay as safe as possible on the roads.
