

Submitter: Fred justesen Justesen

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB803

My name is Fred Justesen. I am a wheat producer in Sherman County. I oppose SB 803. We do not have the renewable diesel supply and infrastructure for a transition of this size or magnitude. There is no plan to address the supply challenges. This bill is redundant as Oregon has already passed enough bills to encourage the use of renewable energy sources. This bill would administratively complex and could lead to supply chain problems. If we are forced to use renewable diesel, we do not have a source to cover our operational needs. The cost to procure this product would be prohibitive as well.
