

2 March 2023

TO: Chair Solloman, Co-Chair Findley & Members of the Senate Committee on Energy & Environment  
Oregon State Capitol  
Salem, OR 97301

FROM: Laurie Kimmell, MSgt, USAF (Ret.)

SUBJECT: Argument Against - SB 803

ATTENTION: FOR ALL REVIEWING AUTHORITIES

Please accept this as my testimony for SB 803. SB 803 is just another attempt to back door a Cap & Trade Bill. Oregon is second in the nation for the lowest Carbon emissions in the nation. Emissions can be divided by population per capita, by sector, or by fuel. Oregon is listed low 5-10% emissions in the nation. It bans Diesel. It mandates to switch to biodiesel. There are only two suppliers for biodiesel. Those 2 places are China and Alabama. SB-803 will disrupt the supply chain, impact the trucking industry, and negatively impacts rural Oregon.

Thank you,  
//SIGNED//  
LAURIE KIMMELL, MSgt, USAF (Ret.)
