

Submitter: David Wall
On Behalf Of: Mr Oregon Neutral SB 222
Committee: Senate Committee On Natural Resources
Measure: SB222

I am Neutral on [SB 222].

The cost of credit is increasing due to the ongoing, incompetent spending by the Federal Government. The Terminal Rate should exceed 6% late in 2023 or early 2024.

Have the responsible Oregon State Agency discuss with the Credit Card Companies, a business agreement in which there are "No" Fees charged to the State for the convenience of offering credit card services, in consideration State will only use said Credit Card Company, for all Fees and all purchases charged by the State.

David S. Wall

Mr. Oregon Concur and says, "Cut regulations and taxes and increased revenues will flow your way-every time you do so."
