

Submitter: Thomas Johnson

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

The world is slowly waking up to the fact that the way we treat non-human animals and the way we treat human animals are very closely related, and Oregon has a chance to be on the right side of history and oppose CAFOs. Factory farming causes suffering and environmental devastation at a scale that boggles the mind. That has to be the past if we have a future as a species. Choose to lead, Oregon, and hopefully other states will follow.
