

Submitter: Darlene Raish
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB891

Give me your tired, your poor, your sick. . . the wretched refuse of your state. Send these to Oregon, the hopeless, the mentally ill and infirmed, and we will put them out of their misery. We are such a compassionate people. No need for counselling, medical evaluation or time to think of better alternatives. Forty-eight hours is enough. Welcome to Oregon for your tourism choice. OH, and we kill babies, too.

Really, do we need to promote more of a death culture in Oregon. Vote this bill down. Bury it instead of people.
