

Submitter: Jean and James Lea  
On Behalf Of: Charbonneau property owner  
Committee: Joint Committee On Semiconductors  
Measure: SB4

We wholeheartedly oppose this attempt to develop the Langdon Farms property and surrounding farmlands into a computer chip plant.

If Clackamas County Chair Tootie Smith states that the commissioners are 'unanimous' in this development, they are not speaking for us nor for the City of Wilsonville.

There have been past agreements made to protect this agricultural land. It is greed alone that makes people seek to develop this valuable farmland for industrial use.

Please remove Wilsonville from Section 10 of SB 4. Protect the foundation farmland of French Prairie.
