

Submitter: Adrienne Stacey

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

Dear Governor Kotek

OPB reports this morning on your hopes to break Oregon 50 year old land use laws. I am very disappointed that you've fallen for the old trick of needing farmland to build on. It seems by this action you find Semi-conductors are more important than our choice Oregon land.

Please turn into the Governor who stewards our lands, not semi conductors .

Sincerely

Adrienne Stacey
