

Submitter: Douglas Allen

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

I oppose SB-4 as introduced. We need to save our farmland and use land that is already within our urban growth boundaries. Let's not do something hasty out of greed, that we will regret forever. Oregon's land use system is doing what it is supposed to. Do not reward greed. Reward responsible land-owners within urban growth boundaries who own suitable manufacturing sites.
