

Submitter: Tom Kells

On Behalf Of:

Committee: Joint Committee On Semiconductors

Measure: SB4

I am against the development of a Semi Conductor plant at the Langdon Farms Golf Course/ French Prairie area. We would love to see the area remain a green space area. The area cannot support the traffic that would be created by such a large development. Traffic is already a big concern in both local and Hwy 5 traffic. We have many accidents along Airport and Miley roads. Please reconsider locating such a development to another location.
